AMUSEMENTS.

WILLIS GRANGER.

The young romantic actor, will appear as the star in "Gypsy Jack," which will be seen for the first time in this city at the Grand on Friday night. It is a rousing story of life and adventures among Gypsies, those very picturesque nomads, whose presence always lends a romantic element to a drama. The play treats with the story of "Gypsy Jack," stolen when a child by the Gypsies, who later on revealed to him

WILLIS GRANGER.

that he is the son of a wealthy man. Many exciting episodes are introduced in the struggle of the Gypsy for recognition as the heir to the property left by the death of Sir John Dexter, and the result is a play of unusual interest and action. There will be many fine stage pictures, and the play is in the hands of a capable company.

Prices, 25c, 35c, 50c and 75c. Seats at Borland's, Wednesday.

A NOTABLE EVENT.

—On account of her many sided personality and the wide scope of her versatility, Mrs. LeMoyné is said to be harder to fit with a suitable character than any other actress on the American stage. In her previous roles in "The Moth and the Flame," "Catherine," "The Greatest Thing in the World" and the First Duchess of Marlborough, Mrs. LeMoyné scored unquestioned success, but despite that, fact the closest friends asserted that the most congenial part was yet to be written for her.

Mr. Glen MacDonough, the well known playwright, was assigned this task for this season, and it is stated that he has performed the work in a highly satisfactory manner. The character of Mrs. Clinton in "Among Those Present," is a bright, sparkling leader of New York society who gets into difficulty through her tendency toward extravagance. The role is said to be of a humorous nature exactly fitted to Mrs. LeMoyné's rare talents as a comedienne. There are also reported to be some situations of breathless interest which cause the audience to remember the play over night and talk about it to their neighbors the next day. The company which manager George H. Brennan has engaged to support Mrs. LeMoyné is said to be the strongest ever seen with her in any of her starring tours.

This excellent attraction will be seen at the Grand, on Friday, Jan. 23d. The free list will be entirely suspended for this attraction.

Those who ventured out on Saturday night to see Tim Murphy and his excellent company were well repaid, for it certainly was one of the very best at tractions that has been seen at the Grand Opera House this season. Manager Porter is to be congratulated upon the class of attractions that he has been giving the Paris public. Mr. Murphy was the recipient of three curtain calls and made a speech after last act.

AFTER THE COAL MEN.

Special Grand Jury To Investigate Alleged Conspiracy.

The Coal Operators, Railroads and Big Dealers Are the Ones Sought—A Verdict of Seventy-Five Men Has Been Selected.

Springfield, Ill., Jan. 10.—A special grand jury met in Chicago Saturday to investigate the alleged conspiracy between coal operators, railroads and coal dealers to increase the price of coal in the Chicago market. Attorney General Hamlin left Friday night for Chicago, and with State Attorney Charles S. Brown, will lead the investigation. He took with him evidence which he says will show that a conspiracy exists.

Attorney General Hamlin secured the services of competent men who visited many mines, and the reports which they made convinced Judge Hamlin that the market was being controlled by certain dealers and operators. The latest report to be made to the attorney general was received Friday afternoon and contained some valuable information. Before leaving for Chicago, Mr. Hamlin said that his evidence would show that certain coal operators and dealers had entered into an agreement by which they could control the coal market. He did not say that any railroads were interested in the alleged combination.

Chicago, Jan. 10.—To determine whether a conspiracy has existed to force up the price of coal, Judge William M. McEwen Friday night, on the petition of State's Attorney Deneen, summoned a venire of 75 men of whom 23 will be selected for a special grand jury Saturday morning. Forty witnesses were named in subpoenas and the whole number was given to the sheriff to serve.

Deputy sheriffs to the number of 20 were sent out simultaneously Friday night by Sheriff Barrett to summon prospective jurors and witnesses.

Small dealers are not the mark at which the state's attorney aims. While the names of witnesses are withheld, it is known that they are those of mine owners and wholesale dealers in coal.

State's Attorney Deneen used names given to him by the Illinois Manufacturers' Association.

A CONFLAGRATION.

Big Factory in London, Ont., Damaged to the Amount of \$300,000.

London, Ont., Jan. 10.—Fire Friday night caused \$300,000 damage to the McClary Manufacturing Co. manufacturing plant. A boy dropped a burning match into a vat of oil and with a report like a cannon the oil went up in a sheet of flames. The 500 employees rushed from the building in a panic. There was a rush for the elevator and the stairs and in a crush scorching and smoke begrimed, the men, women and boys reached the street. No one was seriously injured. The fire burned for hours, the firemen being unable to cope with it. The McClary firm is the largest in Canada.

CONSUMPTIVE HOSPITAL.

Institution For the Treatment and Study of the Disease to Be Erected.

Philadelphia, Jan. 10.—Dr. L. F. Flick, president of the free hospital for poor consumptives, Friday night announced that Henry Phipps, of New York, formerly a partner of Andrew Carnegie, had contributed \$300,000 for the establishment of an institution in this city for the treatment and study of consumption. The institution is to be known as "The Henry Phipps Institute for the study, treatment and prevention of tuberculosis." It will be so endowed as to derive an income of about \$30,000 to \$40,000 annually.

THE PLAGUE EPIDEMIC.

Thirty-Seven Cases in Lazarettos and Six Deaths at Mazatlan.

Mazatlan, Mex., Jan. 10.—Thirty-seven people are in the lazarettos and six deaths occurred Friday, one entire family having died of the plague. Many people have left the city and gone to live on the islands near this city. A number of Americans have also departed. It has been decided to disinfect the entire city at once. The charity commission will pay for the houses that have to be disinfected and for all clothing destroyed. A man attacked by the plague was found on his way to El Castillo. He was brought to the city to be sent to a lazaretto, but he died on the way there.

A woman, in order to save her son from being taken to a lazaretto, put him to bed at home. His father and mother were in consequence attacked by the plague and they died within a few hours. The house has been burned by the authorities. The people seem to be afraid of being taken to the lazarettos, preferring to remain at their homes when attacked by the plague, but the authorities are constantly hunting up sick people and taking them to lazarettos. Many residents are being sent to the department of observation.

Mazatlan, Jan. 10.—A Mexico special says: Of the deaths at Mazatlan Monday it was certified by physicians as being from bubonic plague. The aversion to medical attendance is one of the hardest problems the health officials have to deal with.

FOOT AND MOUTH EPIDEMIC.

The Disease Will Be Stamped Out This Winter, Says Dr. Salmon.

Washington, Jan. 10.—In a report received Friday by Secretary Wilson, Dr. Salmon, the chief of the bureau of animal industry, who is in Boston directing the campaign against the foot and mouth epidemic, says that the disease will be stamped out this winter, unless it has been carried to some other part of the country where it is yet undiscovered. The experts have only two herds on hand, which were reported within the last two or three days. The largest of these herds was to have been killed Friday. Dr. Salmon speaks of irritation among the farmers to receive as recompense the full value of the animals killed. But says the government methods were endorsed in a resolution passed by the Stockholders' Association of Massachusetts at Worcester. Complaints of damage to the milk supply caused by infection are being filed, and hereafter barns where milk cattle are housed will be disinfected in such a way as to leave a little odor as possible.

AN ANTI-TRUST BILL.

The Sub-Committee Has Practically Agreed Upon One.

Washington, Jan. 10.—As a result of extended consideration of the various pending anti-trust bills, the sub-committee of the house judiciary committee, of which Representative Littlefield is chairman, has practically agreed on an anti-trust bill. It has not yet been adopted formally, but it is said to meet the approval of all members of the sub-committee. It will be laid before the full committee Saturday, when it is expected its features will be made public. It is understood that it provides for publicity, not through a new commission to be created but through the interstate commerce commission. It is further understood that the bill covers the administration's suggestions for anti-trust legislation.

The anti-trust bills introduced Thursday, which were drawn by the attorney general, will go to the judiciary sub-committee under the general rule adopted at the time the sub-committee was created.

City of Tampa, Fla., Is Without Fire Protection.

Tampa, Fla., Jan. 10.—Tampa's entire fire department is on strike and the city was without fire protection Friday night. At a meeting of the council Friday night the matter was referred to the fire committee for investigation. The firemen demanded immediate action and when this was refused all the men were ordered out and abandoned the stations. The policemen now are in charge of the stations until other arrangements can be made.

AFFAIRS IN MOROCCO.

The Government Troops Defeated by the Rebels.

His Majesty Keeps the Loyal Horsemen From the South, Around His Person Instead of Sending Them Against the Rebels.

Tangier, Morocco, Jan. 12.—The departure of the five women missionaries, four of whom are English and one American, from Fez, January 8, for Tangier, had long been meditated and was not an indication of new developments.

Many sensational reports are circulating of affairs in Fez and the little reliable news to the hands is considered a satisfactory feature, however, that the tribes of the south of Fez are remaining quiet.

Seven Jews have been murdered in the Naima region. The sultan is reported to be suspicious of the movement of his brother Mulai Mohammed. His majesty keeps the loyal horsemen from the south around his person instead of sending them against the rebels.

Heavy rains now threaten to interrupt communications with the interior of the country at an interesting moment.

Madrid, Jan. 12.—A dispatch to El Liberal from Tangier, Morocco, says: Official reports from Fez declare the sultan has executed his brother, Mulai Mohammed.

London, Jan. 12.—A dispatch to the Morning Leader from Tangier dated Sunday, says the sultan has left Fez with his army and is awaiting the rebels at the Zelu river. The sultan's uncle, Mulai Arfa, has arrived at Tangier and is seeking to raise money for the sultan. The imperial troops are badly armed and unreliable, continues the correspondent, while the rebel soldiers are well organized and better armed.

Paris, Jan. 12.—A dispatch to the Journal from Tangier says a Moroccan courier who left Fez January 8 brings news of a battle between the sultan's troops and the rebels in which the sultan's army was defeated. The sultan has made known his intention, according to the correspondent, of abandoning Fez and taking refuge at Rabat, where he will establish his capital.

A CORPSE AT THE THROTTLE.

The Fireman Found the Engineer Dead on the Engine Seat.

Knoxville, Tenn., Jan. 12.—Passengers on an incoming Knoxville & Gulf railroad train rode several miles Sunday afternoon with the hand of a corpse at the throttle of the engine. The train left Buckeye, Tenn., on time, and ran through to Careyville, the next station. When Engineer A. C. Young ran through the latter town Fireman Matlock knew something was wrong and stepped to the engineer's side of the engine. He found Young dead and immediately stopped the train. There is a wound on the left side of the engineer's head, and the supposition is that a piece fell from the side of a high cut through the mountains and killed him instantly. The train ran perhaps eight miles after Young was killed.

ABRAM S. HEWITT DYING.

Politician, Philanthropist, Student and Ex-Mayor.

New York, Jan. 12.—Abram Stevens Hewitt, former mayor of New York city, and distinguished as a philanthropist, politician and student, is dying. Sunday night it was announced that Mr. Hewitt was growing weaker and that there was but a bare possibility that he might survive the night.

Mr. Hewitt, who is 81 years old, has been suffering from his bed since Thursday at his home in New York. He is suffering from obstructive jaundice.

The immediate members of the family were summoned to the house Sunday night. Mr. Hewitt was born in Haverstraw, N. Y., July 31, 1821, and was graduated from Columbia college at the age of his class in 1842. With Edward Cooper, son of Peter Cooper, he founded the firm of Cooper & Hewitt, to which Peter Cooper, whose daughter Mr. Hewitt married, turned over his business. Mr. Hewitt organized the Cooper union. He has been the secretary of the board of trustees of the university. In 1874 Mr. Hewitt was elected to congress with the exception of one term until 1885, when he was elected mayor of New York.

Wealthy Coffee Merchant's Wife and a Domestic Perished.

New York, Jan. 12.—Mrs. Florene Henry, the wife of Philip S. Henry, a wealthy coffee merchant and partner of the late banker, Leonard Low, was burned to death Sunday by a fire that almost entirely destroyed the residence of the family at 54 East Fifty-fourth street.

Albany, N. Y., Jan. 12.—A domestic jumped from the fourth story window and received injuries from which she died soon afterwards. The fire, which originated from some unknown cause, had gained considerable headway before it was discovered, for when the first alarm was sent out the house was in flames from cellar to roof. Mrs. Henry's two infant children were saved by their nurse, who ran with them to the street immediately after the discovery of the fire. Mr. Henry, who was slightly burned, was rescued by a policeman who entered the house before the arrival of the firemen. It was supposed that his wife had already made her escape.

NOT AN ANARCHIST.

Madrid, Jan. 12.—Feto, the man who fired a pistol Sunday at the parade in the royal procession in which the duke of Salomayor, the grand chamberlain, was supposed to be riding, was examined again Sunday by the judge in the questioning continued the previous reports that he is not connected with anarchists. It was first reported that Feto had attempted to assassinate King Alfonso XIII. His majesty has received a host of royal and other congratulations upon his escape.

A dynamite bomb, which was sent here by rail in a box from Barcelona, has been found at the railroad station. All attempts to discover the consignee of the box have been fruitless. OUR PHILIPPINE TRADE.

Large Increase in Exports Since American Occupation.

Imports During the Nine Months Ended September 30, 1902, Were Valued at \$24,338,322, An Increase Over Same in 1901.

Washington, Jan. 12.—A statement compiled by the bureau of insular affairs of the war department from official returns shows that during the month of September, 1902, the imports of merchandise into the Philippine islands amounted to \$2,785,000, an increase of more than a half million dollars over the corresponding month of 1901, and considerably above the average monthly value for nine months of the current year. The export trade of \$3,569,555 is the largest of any single month since American occupation. The exportation of hemp alone amounted to over two and one-half million dollars, a notable increase over the month of May, 1902. This trade for the five months ended with September 30, 1902, being \$5,004,106, as compared with \$1,624,527 for the corresponding period of 1901.

Imports of merchandise during the nine months ended September 30, 1902, were valued at \$24,338,322, against \$21,818,272 for the same period of 1901 and \$17,187,991 in 1900. Manufactured articles continue to make up more than half the purchases, although two-fifths of the merchandise imported (including nearly six million dollars' worth of rice) consists of foodstuffs, as compared with one-fourth in the corresponding period of the preceding year, in which the value of rice received approximately three and a half millions. Reports received from the United States showed a steady growth.

The total value of exports for nine months ended September 30, 1902, was \$19,239,018, as compared with \$18,850,798 during the previous year and \$17,883,200 in 1900. Almost two-fifths of the total export trade for nine months of the current year is credited to the United States, making this country far in advance as the leading buyer of Philippine products.

POPULAR DEMONSTRATION.

Philippine People Generally Regret the Possible Departure of Gov. Taft.

Manila, Jan. 12.—The general regret of the Philippine people at the possible departure of Gov. Taft resulted Sunday in a popular demonstration for the purpose of urging the governor to remain in the islands. The streets of Manila have been thronged with signs saying, "We want Gov. Taft," in English, Tagalog and Spanish. A crowd of 5000 people gathered to the Malacanin palace, the governor's residence. Sunday upon reaching the palace speeches were made by representatives of all parties in which the governor was urged to remain. The speakers said Mr. Taft's presence was necessary to preserve order, for the prevention of political disruption and to insure the maintenance of the present policy. The speakers paid personal tributes to the governor, the crowd cheering its approval.

In reply to the addresses, Gov. Taft said it would not be decided at present whether he leave the islands or remain until next August. He assured the people that if he did leave, the present policy of the American government would suffer no change, it being not a question of individual, but of national policy.

After the speeches the thousands of natives who filled the grounds at the palace broke into a cheer for the governor.

Insurance Has Its Humor.

An enterprising insurance agent induced an Irishman to take out an accident policy for his wife. A few days later, while conversing with a friend in his office, he was startled to see the Irishman rush in, brandishing fiercely a stout cane. "Ye rascal!" he yelled, springing to his feet. "Ye want to cheat me!" Fortunately the enraged man was disarmed and held fast by the agent's friend, who was a powerfully built man. The Irishman, struggling to get free, shouted: "Let me get at the spalpeen. Think ov it, chargin' me five dollars fer an accident ticket fer me ole woman, an' she jest broke her leg fallin' down stairs! Wot's the good of the ticket, anyhow?"

are overcome by Lydia E. Pinkham's Vegetable Compound.

Miss Menard cured after doctors failed to help her.

"Lydia E. Pinkham's Vegetable Compound cured me after doctors had failed, and I want other girls to know about it. During menstruation I suffered most intense pain low in the abdomen and in my limbs. At other times I had a heavy, depressed feeling which made my work seem twice as hard, and I grew pale and thin. The medicine the doctor gave me did not do me one bit of good, and I was thoroughly discouraged. The doctor wanted me to stop work, but, of course, I could not do that. I finally began to take Lydia E. Pinkham's Vegetable Compound and felt better after taking the first bottle, and after taking six bottles I was entirely cured, and am now in perfect health, and I am so grateful for it."—Miss GEORGE MENARD, 387 E. 162nd St., New York City. —\$5000 forfeit if original of above letter proving genuineness cannot be produced.

SULLIVAN COUNTY, IND., now has two sheriffs. This makes lynching too ridiculously easy.

Mr. ROOSEVELT is making a determined effort to obliterate the fact that his mother was a Southern woman.

Mr. ROOSEVELT is evidently of the belief that the difference between a President and an Autocrat is one of name only.

As the inevitable attendant of the announcement of the success comes the news that 'Marconi is soon to marry a beautiful girl.'

JULIUS CAESAR, JR., is dead in New York from excessive cigarette smoking. The onward march of civilization cannot be stayed.

If Dr. Farkhar's definition of a Socialist as a man who does not want to divide his money with his neighbors, but wants his neighbors to divide their money with him, be the correct one, some Kentucky Republicans are in the wrong stall.

"The impression has gotten out," says a New Orleans dispatch, "that President Roosevelt is trying to force the negro Federal officeholders on the Southern people." Queer, isn't it, how such erroneous notions get into people's head?

A CHICAGO girl has been asleep for three weeks, and her friends fear that she will yet break the record of the interstate commerce commission, the republican reform-of-the-tariff promise and President Roosevelt's idea of shackling cunning.

Here and There.

There were eleven cases of suicide in New York in one day.

The estate of Charles L. Fair, of San Francisco, who, with his wife, was killed in an automobile accident near Paris, France, has been appraised at \$3,040,087.

Maria Dressler, who has been ill with typhoid fever for three months, received \$7,682 as the result of a benefit given for her in New York recently. Miss Dressler is more successful in the role of invalid than actress.

A Denver Judge has ruled that a woman is not to be held to a strict account for what she says about her age. The witness in question had told three different stories as to how old she was. A lawyer called his honor's attention to the fact, but he dismissed the complaint as of no consequence.

When a man asks a girl to marry him, she tells her mother, goes without gloves in zero weather to show her engagement ring, makes a confident of every girl she knows that she may have plenty of time to get up kitchen showers and keeps lingerie in the parlor in order to show it, and yet she falls over in a fit when the announcement is made in the paper.

ORIGIN OF BASE BALL.—The Devil was first coacher. He coached Eve to take first. Adam stole second. When Isaac met Rebecca at the well she was walking with a pitcher; Samuel struck out many times when he slew the Philistines. Cain made a base hit when he killed Abel. Abraham made a sacrifice. The prodigal son made a home run. Moses shut out the Egyptians at the Red Sea. The game was called when the flood came on account of the wet grounds and Noah had all the rain checks.

Latest Fashion Notes.

A CHARMING STREET COSTUME.

A charming street costume of tan and brown mixed suiting is here depicted. The jacket and skirt are cut in sections, each section piped with brown velvet and handsomely trimmed with corn cloth applique. The vest which is cut with a standing collar is made of pale bisquit embroidered cloth, and is edged

with brown, blue and black gullion. A wide velvet shawl comes around the waist. Particular attention is called to the sleeve which has a wide flare over a puff of bisquit pean de sole. All machine stitching must be carefully done, and for this purpose Corticelli stitching silk is usually employed.

No material lasts longer and looks better than a good covert cloth, and for an extra garment to be worn with any kind of a walking costume, there is no more sensible purchase. Very manly and smart is a three-quarter length coat of this material made with a loose back, fly front, velvet collar and a lining to the waist of satin serge in the next shade darker.

DEATH FROM FALL.—J. W. Mann, who fell on the ice at Lexington, last week, and broke his hip, died Saturday afternoon as a result of injuries sustained by the fall. Mr. Mann was a married man, 28 years old and was employed as brakeman on the C. & O. Railway. His wife was a Miss Martin, of this city.

INTERURBAN.—On account of the very unfavorable weather work on the interurban road between this city and Lexington has been abandoned for the last four weeks and will not be resumed until the weather conditions are more favorable. Every effort will be made to make up the time lost, but it is hardly possible that the road will be in operation before the middle of the summer, which is six weeks later than at first expected.

FROM COLORADO.—Mr. Wm. N. Clark, in re-newing subscription to the BOURBON NEWS, from Cannon City, Col., writes us as follows: "Mail my paper here, so that I can keep up with what's going on in old Bourbon. The climate here is beautiful, but you can see snow on the Rockies that is estimated at from 10 to 12 feet. This is certainly a rough country—don't look anything like our garden spot. I have a job in the penitentiary and am very much pleased."

Keep Up The Good Work.

JOHN HILL, colored, was arrested Saturday, at Hutchison Station on the charge of seduction. The warrant was sworn out against him by T. A. Cook, agent of the Humane Society, of Lexington, who found his victim, a little girl thirteen years of age in charge of her aunt on Lottie street, in that city. She told such a revolting story of mistreatment at the hands of Hill that immediate action was taken to place him in custody. When arrested he made no resistance and said he had been expecting it for some time.

Youtsey Before The Jury.

At Frankfort on Saturday Youtsey was in the grand jury room continuously for more than six hours. The town is flooded with all sorts of sensational rumors regarding the story told by Youtsey. It is believed however, that there are no leaks from the jury room and that the stories told are mere rumors. If they were really told by Youtsey there will be several very uneasy and anxious people in the state awaiting the action of the grand jury.

Col. Craddock's Economy.

COL. CRADDOCK, the venerable editor of the Kentuckian-Citizen, has been playing in hard luck lately. He lost one of his overshoes and went to several shoe stores and tried to buy a single shoe, without avail. He went to a hardware store and bought one ice-creeper, which made one of his legs "longer than it really ought to be." He managed to find a pair of old rubbers, but found that they would not fit over the old shoes, so he purchased a pair of new shoes that would fit in the rubbers. The Col. says he always tries to be economical no matter what it costs.

The Weather.

The weather in this vicinity for the past several days has been cold and disagreeable, with ice and snow, making navigation almost impossible. The cold is general over the states. The snow was ten feet deep on the railroad tracks near Hamilton, Ohio. At Urbana, Ohio the question of fuel is worrying the residents to a great extent. The pressure of natural gas is so low that it is almost impossible to heat a house or even cook a meal. At Owingsville, Ky., there have been several accidents on account of ice and traffic is nearly suspended. At Altoona, Pa., the snow has been a foot deep. In many towns of Kansas and Western Missouri fuel cannot be purchased, and fruit and shade trees, old buildings, sidewalks and fences are being used as fuel. At Chicago, Rev. A. R. White, a member of the Detroit "Get Coal" Committee that is going to seek intercession from President Roosevelt in a sermon preached Sunday night, advocated Government ownership of coal carrying roads.

Big Law Suit.

The Cincinnati Enquirer, of yesterday, says: "Judge Howard, of Paris, Ky., has been in Newport the past few days as the representative of ex-State Auditor John Sweeney, who is being sued by the State of Kentucky to recover \$30,000 alleged to have been mispent during the recent gubernatorial squabble at Frankfort when Governor Goebel was assassinated."

"There are some interesting law points involved in the case."

"The point that the defense is trying to make is that Taylor, and not Goebel, was Governor during the time that the alleged illegal expenditure were made. Judge Howard is here to prove by the records of the Campbell County Court that Senator T. M. Hill, now deceased, who was ill at the time, did not qualify until January 31, 1900, and that prior to that time the Legislature did not have a working quorum to declare Goebel the Governor. Consequently, he contends that the acts of Taylor and his cabinet were legal and binding until the time that Hill had qualified, thus creating the quorum necessary. It is maintained by the defense that there was really no meeting of the Legislature until the adjournment from London to Frankfort on February 19, 1900. Judge Howard left last night after having secured attested copies of all of the papers relating to the qualifying of Judge Hill."

Unless this is done the cold is almost sure to end in the second stage of catarrh, which is making so many lives miserable. If Peruna was taken every time one has a cold or cough, chronic catarrh would be practically an unknown disease.

TWILIGHT IN IRELAND.

It is Different From That Seen in Any Other Country.

The interior of a typical Irish cabin is a sorry sight. The floor is of stone, uncovered except for a few rag mats. The furniture is of the poorest, and sometimes it is homemade; tables improvised from boxes, chairs from barrels, and the beds more like stalls for cattle, with their straw mattresses and bundle of rags for clothing. A slow, dull fire of peat gives a cheerless warmth to the room. What few dishes there are belong to the family are arranged on the mantelpiece. Strips of bacon, dried cod and herbs hang from the ceiling.

After a frugal meal that will take his evening promenade. It is between supper time and going to bed that the Irish most enjoy themselves. An Irish twilight is different from any other; indeed, it is without a rival. It seems as if there the sun were loath to set, casting its rays over the Emerald Isle many hours after it had disappeared elsewhere. In that delicious moment, just before it finds its final resting place for the night, it is most enchanting. Over everything is an unspeakable spell of peace and quiet, and a warm glow casts into shadow unsightly objects and surrounds them with a mystic halo of golden light. It radiates into the hearts of Ireland's humblest inhabitants, and they sail forth, rich and poor alike, mingling in a throng of living, moving humanity.

London Theaters of Long Ago.

A writer in London Truth says that in the early part of the eighteenth century the London theaters opened at 6 o'clock, and as it was therefore difficult for playgoers to arrive punctually and obtain seats many of them sent footmen or hired men from the streets to secure places for them. These sat in the seats until those who had sent them came, and the custom prevailed until 1766, when the system now in force was adopted. "A footman used to be sent early to take places and keep them by the simple but effective plan of sitting on them till his masters and mistresses arrived. Such a practice would now be considered an intolerable nuisance, but people in those days were much less particular, and appear to have thought nothing of sitting for an act or two cheek by jowl with a dunkey or, worse, with a vagabond picked up in the street." An allusion to the custom occurs in Fielding's "Miss Lucy in Town," act 1, scene 2, and in Pepys in his "Diary" occasionally mentions having hired a boy in the streets to occupy a seat for him.

Japan Once Joined to China.

Japan consists of a group of "festoon islands," forming a long curve, with its concavity toward the mainland, and many of their peculiarities are due to their upheaval by subterranean forces, of which they are still one of the most active seats. They were undoubtedly connected with China and with the land to the north of this at no very remote period, geologically speaking, and therefore, like Great Britain and Ireland, are scientifically classified as "recent continental islands." The proofs of this are twofold—first, they are connected with Asia by a submarine bank less than a hundred fathoms beneath the surface, and this is believed to be, as in all such cases, a submerged land tract; second, the animals of Japan are closely similar to those of China, the only plausible explanation of this being that formerly there was a land connection.

Queer Japanese Customs.

In some villages in Japan robbers are tried and convicted by ballot. Whenever a robbery is committed the ruler of the district summons the entire male population and requests them to write on a slip of paper the name of the person they suspect as having committed the crime. The one receiving the largest number of ballots is declared duly "elected" and is accordingly hanged. This system, like all others, has its peculiar advantages. It insures the punishment of somebody for every robbery committed, whereas under the system in vogue in most civilized countries in nine cases out of ten no punishment is inflicted on anybody for the crime. Of course they may not "elect" the guilty person, but dispose of some other character equally bad.

Old Violins.

The old time violin was the first instrument of its kind and furnished the plan for the modern violin, which, however, is 700 years old. It is said that Charles II. introduced it into England. One of the finest makers of violins was Stradivarius of Cremona, who existed in the early part of the eighteenth century. Violins made by him are worth thousands of dollars now and are highly esteemed by collectors and performers.

STOCK AND CROP.

—W. A. Gaines, of Georgetown, who purchased a farm at Centerville, will move the 1st of March.

—Wm. Cantrill has purchased the Fitzgerald farm at Jacksonville, of 110 acres. Price not given.

—In Jessamine, Jas. Halett sold from 12 acres of ground 24,000 pounds of tobacco, getting for the crop 12½ cents.

—J. Simms Wilson bought of N. G. McDonald, of Avon, 3,000 bushels of bluegrass seed at 68¢ delivered here.

—George Graves, of Centerville, this county, will move March 1st, to a farm he purchased near Newtown, Scott county.

—Alvin Davis, son-in-law of Mayor Benj. Perry, of this city, will have a string of horses at the Lexington track this Spring.

—An effort is being made in Henderson, Union and Webster counties to curtail the crop of tobacco in Western Kentucky.

—Jockey Lucien Lyne has been compelled to change all his plans and he will now sail from New York for England January 14, instead of February 1.

—J. T. Black bought 3,169 turkeys for Riker & Good this season in Mercer and Washington counties. They weighed 37,808 pounds and cost \$8,173.40.

—Reuben Offutt and wife, of Newtown, who rented out their farm and went to Texas, about a year ago, will return about the 1st of March and reside at their old place.

—Carefully prepared statistics reveals the magnificent total of \$4,662,424 as the gross earnings of the horses that raced over the tracks of the United States in 1902.

—J. A. Middleton and son, of North Middletown, the well-known breeders of trotting horses, have decided to close out their breeding establishment this spring and consequently about 75 head of the most royally bred trotters in the State will be sold. Among this lot will be found the great Altas 2:26 sire of Alrich 2:12½, Alkone 2:31 and Donovan 2:27. The sale of these trotters means the passing of one of the best known land marks in the breeding world of Kentucky. The richly bred mothers will be largely sought for.

—A leading Fayette farmer, speaking of the condition of the crops said, that never in his recollection had he seen the farmers in better shape or with better prospects for the coming year. He said that the tobacco crop had never been better and the prices for it higher. The corn crop surpassed every expectation, while the winter grass is in splendid shape and the wheat prospects are the best in years. Although the weather has been very disagreeable there has been little that was trying on stock, and because of the splendid grass comparatively little feeding has been required. "If the farmer is ever going to be satisfied," said he, "it ought to be now."—Lexington Herald.

HAVING been defeated by a goodly majority a Missouri republican is going to try for a seat in Congress by the contest route. This is about the only possible way for a Missouri republican to win.
